Beautiful Georgia is famous for its boundless hospitality, rich feasts, and beautiful music. The atmosphere of the sunny Caucasus is embodied in the St. Petersburg restaurant “**TBILISO**”.

Georgian artists made the main decorations of elegant engravings, which include the views of Tbilisi. Many details of the engravings in the restaurant can be found on the countertops, candlesticks, lamps, and in the shape of horns all around. In the restaurant “Tbiliso”, one can find private rooms for up to 18 people, which are designed like cozy Georgian cabins. There, one can enjoy a great feast with family and friends. The rooms are also separated by translucent draperies, which portray the scenes of paintings by Niko Pirosmani. These images adorn the dishes also.

Tbiliso offers dishes that can be found in Georgia and other caucus countries. In addition to the main menu, Tbiliso offers a variety of seasonal dishes, including traditional Georgian and variations of Caucasian cuisines.

Caucasian cuisine cannot be served without barbecue. Shish kebabs are marinated in a special secret recipe without vinegar, but with lots of different spices. For example, a shish kebab of pork requires 13 species of Caucasian spices.

Immerse yourself in the enchanting atmosphere of Georgia in Tbiliso’s musical program. Every Wednesday, the restaurant invites you to spend an evening to the sounds of acoustic guitar, and on Thursdays for live saxophone music. Dance with professional dancers performing with daggers, also provides a great time for everyone.
